

**Hinweis zur Verbindung der TECCO® G45/2 und G65/3 – Geflechtbahnen mit Verbindungsclips T3
Instructions for connecting TECCO® G45/2 and G65/3 mesh panels with connection clips T3**

Zur Verbindung der Geflechtbahnen seitlich zueinander (Standard) sowie zur Verlängerung der Geflechtbahnen (optional) sind die Verbindungsclips T3 gemäss den nachfolgenden Abbildungen anzuordnen, um eine kraftschlüssige Verbindung gewährleisten zu können.

The following figures clarify the arrangement of connection clips T3 for different positions of mesh panels relative to each other for lateral connection (standard) and for lengthening of mesh panels (optional). This enables a force-locked connection.

Überlappung ≤ 2 Maschen
Overlapping ≤ 2 meshes

Überlappung > 2 Maschen
Overlapping > 2 meshes
